

# INDIVIDUAL PENSION PLANS

## FUND LIST

JUNE 2026

This fund list details the funds available to all Phoenix Wealth individual personal pension plans (except Retirement Wealth Account policies not upgraded from The Personal Pension).

### Which funds can I access?

The funds you can invest in are determined by the commencement date of your individual personal pension plan. Our funds are split into series on this basis. See below for details of which funds are available through your plan and overleaf for the annual Fund Management Charges (FMC) and Fund Expenses that are applicable.

### When did your pension plan start?

#### **BEFORE 14 OCTOBER 2003**

You can select from Series 1 funds.

#### **BETWEEN 14 OCTOBER 2003 AND 5 APRIL 2006**

You can select from Series 1 funds, however where there is a Series 2 version of the same fund you must use the Series 2 version.

#### **AFTER 5 APRIL 2006**

You can select from Series 3 funds. Please note this excludes Retirement Wealth Account policies not upgraded from The Personal Pension.

#### **RETIREMENT WEALTH ACCOUNT**

These plans invest in Series 4 funds, which are not shown in this Fund list. For details of the funds available through Retirement Wealth Account pension plans, please see the **Retirement Wealth Account Fund list**, available on request.

### How can I find out more about these funds?

To find the latest fund factsheets with details of fund performance and where funds are invested, visit [www.phoenixwealth.co.uk](http://www.phoenixwealth.co.uk)

### About this fund list

There are three main fund ranges within our offering, denoted in this fund list by the symbols shown below:

**MS** **Managed Solutions:** This range comprises the Phoenix Wealth Elite funds and the Liontrust Multi-Asset funds.

**TS** **Tailored Selection:** This is an exclusive range of externally managed funds. We offer both active and passive funds within this range.

**SC** **Showcase Funds:** If you're looking for something a little different for your portfolio, we include a small number of specialist funds to be part of Tailored Selection. These are our Showcase funds, designed to introduce you to some of the industry's best kept secrets.

If our main fund ranges are not appropriate for you, we also offer a number of additional funds. These funds are shown without an **MS** or **TS** symbol next to them. Some of these funds may once have been part of Tailored Selection.

**The value of an investment can fall as well as rise and is not guaranteed. You could get back less than you invest.**

## Sustainable investment labels

The FCA has introduced four labels to investment funds that aim to make clear the differences between different types of sustainable investment. Read more about the [labels and sustainability disclosures](#)

### Four sustainability labels

The four sustainable investment labels appear in this fund list as follows:

Please note: If any of the four labels are shown next to any of the Phoenix Wealth funds, the label applies to the underlying fund that is held, and not the Phoenix Wealth fund. It has been determined and disclosed by the manager of the underlying fund and it is not endorsed or verified by Phoenix Wealth.

Sustainability label	Description
<b>Sustainability Focus</b> 	These funds invest mainly in assets that focus on sustainability for people or the planet. Examples may include activities to support the production of energy, for example, from solar, wind or hydrogen.
<b>Sustainability Impact</b> 	These funds invest mainly in solutions to sustainability problems with an aim to achieve a positive impact for people or the planet. Examples may include renewable energy generation and social housing.
<b>Sustainability Improvers</b> 	These funds invest mainly in assets that may not be sustainable now, but aim to improve their sustainability. Examples may include investments in companies that are on a credible path to net zero by 2050, or are committed to improving social standards such as human rights.
<b>Sustainability Mixed Goals</b> 	These funds invest mainly in a mix of assets that either focus on sustainability, aim to improve their sustainability over time, or aim to achieve a positive impact for people or the planet. Examples may include a mixture of investments from the labels above (Focus, Improvers and Impact).

## Important Notes

The value of an investment can fall as well as rise and is not guaranteed. You could get back less than you invest.

Many funds invest in shares or other assets which are designated in a different currency to the fund. Some underlying funds can also be denominated in a different currency. Where there are currency differences, prices may fall and rise purely as a result of exchange rate fluctuations.

You have the flexibility to switch between Phoenix Wealth funds at any time currently free of charge, though Phoenix Wealth reserves the right to impose a charge in future. We also reserve the right to refuse any switch request and/or limit the number of switches. Please note that there may be an indefinite delay for disinvestments from funds where Phoenix Wealth is unable to realise the assets immediately. For further details, please see your **Terms & Conditions** or **Policy Provisions**.

Please refer to the appropriate **Key Features Document** for more information about the Individual Personal Pension plan, such as the aims and risks, minimum investment levels and the tax treatment. You should be able to hold an investment for the medium term (at least 5 years) to the long term (over 10 years).

## Key to symbols

- † Please note emerging markets tend to be more volatile than established stockmarkets, which can result in large fluctuations in the price of the units in these funds.
- ◆ From time to time valuations of property within this fund are carried out by independent chartered surveyors. The value of the property in the fund is a matter of the valuer's opinion rather than fact.
- ~ The unit price is based on whether we are experiencing an overall investment into the fund (by all our investors combined) or an overall disinvestment from the fund. When there is a change from investment into the fund to disinvestment from the fund there may be a significant reduction in the unit price from the previous day's price (and a significant increase in the unit price when the change is the other way). This is due to the high dealing costs involved in buying and selling property. All transactions in the fund on a particular day are effected at the same unit price, irrespective of whether you are buying or selling units.
- ▶ Please note that these funds do not aim to protect all of the investment nor do they guarantee any of the investment. This means that you could get back less than invested. There are circumstances where the protection could fail.
- # Investors should expect this fund to experience periods of significantly greater volatility (tendency of a fund's price to vary) than other funds in its sector.

- ▲ While investments in these funds are lower risk relative to other investment categories, they do not guarantee total security of capital because certain scenarios can arise resulting in a reduction in the value of your investment.

These scenarios include:

- i If interest rates rise, the current market value of certain types of instruments held in the fund will drop.
  - ii A counterparty defaults leading to only a proportion of the value of an investment being recovered.
  - iii In very low interest rate environments, interest rates earned can be lower than the charges applied to your investment.
- △ The manager of the underlying fund in which this Phoenix Wealth fund invests has changed the way they charge for their fund. They've moved from an Annual Management Charge plus Additional Expenses which are shown separately, to a single annual charge known as a Fund Management Fee which includes expenses.
- As a result, we're no longer able to show Annual Fund Expenses separately for this Phoenix Wealth fund. Instead, there is now only an Annual Fund Management charge.

As the funds expenses are now included in the Annual Fund Management Charge, this charge may be higher than it was previously – but in actual fact the overall charge will either be the same figure, or lower than it was previously.

The underlying fund manager may apply a further reduction to their fund charge as its fund size increases - if this happens, we will reduce our fund charge accordingly. In the same way, if the underlying fund size reduces then the reduction in charge may also reduce which could result in a slight increase to the charges. If the increase in charges is greater than 0.1%, we would confirm this in writing.

- ∅ Liontrust have advised they have changed their calculation methodology for the annual fund expenses which has resulted in a higher figure being reported from 13/09/2022 in some cases. They have stressed that there is no increase in the actual charges or expenses. Further detail can be found on the Liontrust website - <https://www.liontrust.co.uk/costs-and-charges>

## Charges

The Fund Expenses are determined by the external fund managers and vary frequently. Where applicable, they are in addition to the Fund Management Charge, are deducted from the underlying fund on a daily basis and are reflected in the unit price. If the fund manager changes their Fund Expenses, the Fund Expenses included in the unit price will be updated more frequently than our literature is reprinted and they may be different to those which appear on your illustration. Phoenix Wealth reviews and updates Fund Expenses annually (or more frequently if notified by the fund manager). Please note all Fund Expenses shown in this fund list are rounded to the nearest 0.05% and are correct as at 31 May 2026.

In addition to the fund charges shown in this document, product charges and advice charges may also be applicable. Please see the Charges leaflet (available on request) for details of product charges. Your financial adviser will be able to tell you about any advice charges.

We may increase the Fund Management Charge if there is an unexpected increase in the costs we incur in providing the Policy or the management of the fund and our Actuary considers such an increase to be reasonable. Any increase necessary will be fair, reasonable and in proportion to the increase in costs we incur.

The circumstances that could lead to such an increase in our costs are changes in tax rules, legislation or regulatory requirements or other legitimate cost increases associated with the provision of the Policy such as unexpected increases in staff or overhead costs, or in the underlying fund manager's charges.

If we increase the Fund Management Charge on a fund in which you have units we will give you the following notice:

- i Where the increase is being made by us due to a change in the underlying fund manager's charges, we shall endeavour to give you no less than 30 days notice. If we are unable to give you 30 days notice, we will give you as much notice as is reasonably practicable.
- ii In all other circumstances we will give you no less than 30 days notice of the increase.

Where a Phoenix Wealth fund invests in units in another Phoenix Wealth fund, we will ensure that there is no duplication of the Fund Management Charge.

## Multi-Manager Fund Charges

### Phoenix Wealth Liontrust Funds

The Fund Expenses for all Phoenix Wealth Liontrust Funds include the Fund Expenses and FMC for all the underlying funds within the Liontrust fund.

### Phoenix Wealth Elite Funds

The Fund Expenses for an Elite fund will always be nil as they are included in the annual FMC.

The FMC also includes the annual FMC for all the underlying funds within the Elite fund.

## Unit Prices

Our unit price is determined by the price at which the underlying assets/fund can be bought or sold. An underlying fund price reflects whether the underlying fund is buying or selling assets. Underlying assets typically have a higher price when being bought rather than sold. Consequently, our unit price may fall or rise purely as a result of sales or purchases of assets of the fund or an underlying fund.

The valuation date for the unit price used for the purchase and sale of units depends on the dealing cycle for each fund. Dealing cycles for each fund may be subject to change. For details of current dealing cycles please see our **Individual Pension Funds – Fund Dealing Guide**, available on request.

## Asset Class

The asset classes outlined in this fund list relate to different types of investment held. Each asset class has different characteristics based on its level of risk. There are different types of risk that can have an effect on the performance of your investment over time. These asset classes are provided by eValue.

**For more details speak to your financial adviser.**

Name	Description
<b>Money Market</b>	Deposit based investments that pay interest held with institutions such as banks and building societies.
<b>Property</b>	Commercial property such as offices, warehouses and shops.
<b>Fixed Interest</b>	Investments that pay a fixed income such as bonds offered by governments or corporations.
<b>UK Equity</b>	Shares in companies listed on the UK Stock Exchange.
<b>Developed Market Equities</b>	Shares in companies listed on stock exchanges outside the UK. The countries involved will have high standards of control and regulation, such as the US, Europe and Australia.
<b>Emerging Market Equities</b>	Shares in companies listed on stock exchanges outside the UK. The countries involved will generally be fast growing and may have a less mature market structure for the trading of stocks and shares.
<b>Other</b>	Multi asset funds or funds that are not within the categories above.
