Notes

This form must be received at least 10 working days before any changes are due to take effect.

Ongoing adviser charges and Flexible Adviser Remuneration are together referred to as 'adviser payments'.

This change will apply across all contribution sources or the part or parts of your policy that the adviser payment applies to.

Your existing adviser payments will be spread across the new frequency you choose. For example, if you pay 0.6% per year and you choose to pay monthly, it will be divided by 12, so 0.05% will be paid each month.

Ongoing adviser charges

- If you have not received an illustration from your Financial Adviser that shows the impact of the deduction of the proposed ongoing adviser charge on your projected pension fund value, please tick this box and we will send you one.

If you have received this already, then please include your illustration reference number in section 1.

For full details of how adviser charges can be facilitated through your policy, please refer to the 'Adviser payments' section of your **Terms & Conditions/Policy provisions or Endorsement**.

Flexible Adviser Remuneration (FAR)

It is no longer possible to set up new FAR arrangements as a method for paying for advice on a new policy or existing policies where advice and services are given. Any recurring FAR already in payment to your financial adviser for ongoing advice you receive can continue but the overall amount cannot be increased. However, you may change the frequency of your FAR payments.

If the change results in FAR being paid less frequently, the change will take effect from the next anniversary date of the existing FAR payment. This will ensure that we do not pay more FAR in a policy year than was disclosed in the original pre-sale illustration.

If the change results in FAR being paid more frequently, the change will take effect from the date the next FAR payment, on the existing basis, was due.
